

MANUAL FLANGE FACER

2" - 25" MANUAL FLANGE MILL

The **MFM-L Manual Flange Mill** is a simple and cost-effective solution for ID mount flange facing. It is a quick and easy way to recondition damaged or worn flange gasket seats to like-new condition on site. It is designed and built to allow quick and convenient processing of small flanges in awkward locations and produces a precise phonographic finish.

Being hand operated, without the need for any form of power supply, it is ideal for hazardous areas or remote locations.
