

TUBE REMOVAL

Accessories & Other

Accessories to assist with tube pulling equipment and other tube removal tools and helpful devices when tube pulling equipment is not possible.

Tube Wall Reducer

Special reamer made out of high speed steel, featuring a centralizing pilot specially grinded according to the tube gauge. Used to thin tube walls for either using Tube Collapsing Tool, Tube Drift or Tube Pulling Mandrel.

RANGE: 12.7 – 38.1 MM

Tube Collapsing Tool

Simple and solid tool used specifically for quick removal of tube stubs from the tube sheet. Tubes must be thin wall for most effective use. Recommend Tube Wall Reducer first on thick wall tubes. Works great with chipping hammer.

RANGE: 10 – 50.8 MM

Tube Drift

Simple, solid tool used for quick removal of any tube stubs from the tube sheet. . Tool sized to suit tube OD and pilot sized to suit tube ID. Works great with chipping hammer.

RANGE: 12.7 – 25.4 MM

Tube Collapsing tool and tube drift to be used with UT8654H 4" Stroke Chipping Hammer.
